Large photos of the Kindle books covers makes it especially easy to quickly scroll through and stop to read the descriptions of books that you're interested in.
Hino 310 Engine
Your 310 likes the higher rpms (2350 to 2750) and wants to be run there. I would every time you use the boat run it at full 3000 rpm for a few minutes under a load and blow it out. This engine is designed to run at a high rpm where as the Detroit 671 is designed to run at low rpm's.

Hino 310 Performance Chart - BAYLINERÂ® OWNERS' CLUB
The primary difference between the two engines is the direct injection system, with the standard engine using Bosch injectors to reach 250 hp. and the optional H310D using Zexel-AD injectors to produce 310 hp. at the propshaft. Transmission for the smaller engine is the Hurth 630-A, while the larger engine uses the Hurth 800-A.

Although over the last 15 years we have had 175, 220 and now 310 Hino s we have also owned boats with Lehmans, Perkins, and Cummins engines in addition to various gas engines. On the last used boat search we were on - we specifically wanted to get the Hino s but that was a personal preference based upon our needs.
